

High risk investment

Forex trading with leverage is associated with a high degree of risk and may not suit you personally. You should carefully assess your financial goals, experience and willingness to take risks before you decide to trade foreign currencies, with the help of products and FBS services. FBS Markets Inc. gives general advice on doing business, which should not be considered as recommendation to achieve your personal financial goals. The content of site should not be interpreted as personal advice. There always remains the possibility of partial or total loss of initial investment. You should invest in Forex trading, only those tools that you can afford to lose, without affecting your well-being. You must consider all the risks associated with marginal trading. If you have any questions or concerns, FBS advises to consult an independent investment adviser.

Market risks and interactive trading

The FBS Online Trading Platform provides many opportunities for transactions and controlling the

execution of transactions. FBS makes every effort to ensure that the transactions were executed on the requested price, but online commerce, no matter how convenient and efficient, not necessarily decreases the degree of risks associated with foreign exchange trading. All conditions for obtaining quotations and transactions are discussed in detail in the provisions of "Customer agreement". You can find an agreement on our site.
